

Apple Bites **

Ingredients

10 red apples

10 green apples

1 bag of slivered almonds, toasted almonds or potato snack sticks

Directions

Quarter apples.

Cut a wedge out of each apple piece to make it look like an open mouth.

Insert slivered almonds, toasted almonds or potato snack sticks into wedge to create teeth.

Note: For allergy purposes, toasted almonds and potato snack sticks were used at Vernfield as a substitute for slivered almonds which were made in a peanut facility.
