

Find Your Other Half

Supplies: Large Die-Cut Hearts (1/2 as many as your class size, e.g., if your class size is 20, then you will need 10 hearts)*
Scissors

* Please note: If you have an uneven class size (i.e., 21 kids), cut out 11 hearts and ask the teacher or a mom to play.

Directions: Cut each die-cut heart in half in a different way (you may want to use scrapbooking scissors with different edges). Shuffle heart halves. Give each child half of a heart. Let them find their other half.
