

Snowman Popsicle Magnet

Supplies: Popsicle stick, white paint, felt (black, orange, assorted for scarf), googly eyes, gems for buttons, magnets

Instructions:

- Paint the popsicle stick entirely in white (or get white popsicle sticks). Allow to dry. Repeat the process; you may need to use several coats to get a good white. DO THIS BEFORE THE PARTY.
- Cut out a snowman hat shape from red felt. Use glue to affix this to the top of the popsicle stick.
- Cut out a scarf from red felt. Cut little slits on the ends to create a fringe. Affix the scarf to the popsicle stick as shown in the photograph with glue.
- Cut nose from orange felt (may be done in advance)
- Glue eyes, nose and buttons to popsicle stick
- Glue magnet to back

Note: Depending on the age level of the students, you may want to have all the felt pieces pre-cut. Glue dots may also be useful for this project.
